

OUGHEY DISTRIBUTION HEADS SOUTH!

NWF Group plc ("NWF"), the diversified sales and distribution business, announces that its wholly owned subsidiary, Boughey Distribution Ltd, has opened a new depot in Purfleet, Essex.

This new depot will enable Cheshire-based Boughey to cater for distribution to London and the South East with greater efficiency than previously and will allow it to move full trailer loads overnight on the important North West – South East axis. Six LGV units and ten trailers are initially based at the depot, with expansion capacity for up to double this number.

A key feature of the Purfleet depot is that it provides finely tuned, flexible and cost-effective multi-user distribution services, ideal for growing companies as their logistics requirements change. Boughey Distribution provides a sophisticated distribution service geared to offering consolidated, shared-user loads, making it feasible for companies to achieve the smaller, just-in-time deliveries required by retailers today.

Garry Sumners, Boughey's Transport Manager, is managing the new depot, which opened in April. He commented 'I am delighted to have opened this new depot which will both extend Boughey Distribution's geographic coverage and improve service to our customers. I look forward to working with existing and new customers to ensure the depot's success'.
